

# Moyobob

Sprint 2

Team 5

## Revision

### Project Requirements and Specification

- Updated User stories
  - Sign in
  - Sign out
- Updated User Interface Requirements
  - Draw again with draw.io

## Progress

- Major Difficulties
  - **Specifying design** - Checking for any missing parts of the design and making an agreement when each member have different imagined designs.
  - **Devising Architecture** - Making decisions about what framework to use and whether to use a WebSocket or not.
- Contributions
  - Testing plan: Hyemin Kim
  - Backend schema, API: Kangwook Lee
  - Fronted class planning: Yeonghyeon Kim, Hyunsuk Choo
  - View diagram: Hyunsuk Choo

We altogether discussed what to write for Design & Planning and which part of the Requirements & Specification to modify.

Sprint Report is written by Hyemin Kim.
